

BEST BLENDERS UNDER \$100, TESTED AND REVIEWED

Finding the right blender under \$100 is a bit difficult. But if you are reading this then you are in the right place.

For the last one week I was working to find the 5 best blenders under \$100. I sneaked through shops, online journals, talked to my friends and neighbors to give you guys the best blenders under 100 bucks.

The interesting part is I got my hand on all of these 5 blenders so I know what these blenders are capable of.

So let's jump into the main review.

5 BEST BLENDERS UNDER \$100

- [Ninja BL610 Professional](#)
- [Cuisinart CBT-600GRY Velocity Blender.](#)
- [BLACK+DECKER PowerCrush Digital Blender.](#)
- [Oster Touchscreen Blender.](#)
- [Hamilton Beach Wave Crusher.](#)

NINJA BL610 PROFESSIONAL: EDITORS CHOICE (RECOMMENDED)

Price: \$64.88

Warranty: 1 Years

Reason To Buy This Blender:

First things first – it's the wallet's best friend. If you are looking for the cheapest professional blender, then Ninja BL610 is one of the best options. You get top-notch blending without a dent in your bank account. Cha-ching!

The second reason is its capability to blend large batches of ingredients. The Ninja BL610 is your trusty sidekick for handling large batches like a pro. And guess what? It won't cost you more than a Benjamin. That's a blending win!

Now, let's talk magic – Ninja's Auto-iQ. It's like having a blending genie. No more second-guessing your blending game. Just hit a button and watch the Auto-iQ whip up perfection. It's basically blending on autopilot – your kitchen just got a whole lot smarter.

But wait, there's more! Three layers of blades – count 'em, three! Crushing ice is a walk in the park for this powerhouse. No more battling with stubborn ice chunks in your smoothie. It's all about that consistently smooth texture. Say hello to the end of icy struggles!

Here is another good reason to buy style. This blender isn't just about function; it brings some serious sleekness to your kitchen. Consider it a kitchen makeover without the hefty price tag. Your space will be the epitome of modern coolness – thanks, Ninja!

And the manual? Yeah, it's there, but honestly, it's like having a backup parachute for a blender that already knows how to fly. This thing is so user-friendly that you'll wonder why manuals exist in the first place. Buttons with names and roles crystal clear – it's like the blender is saying, "Don't worry, I got this."

So there you have it – the Ninja BL610 Professional Blender, where affordability meets professionalism, and your kitchen gets a serious style upgrade.

Features & Benefits:

- **PROFESSIONAL POWER:** With a whopping 1000 watts of power, this blender means serious business. It doesn't just blend; it crushes ice and tackles the toughest ingredients like a champ. Power up, blend on!

- **XL CAPACITY:** The 72 oz pitcher is like the superhero cape of blenders. Perfect for whipping up frozen drinks and creamy smoothies that can satisfy the whole fam. It's like the more, the merrier, but for your blender!
- **INTELLIGENT TECHNOLOGY:** Total Crushing Technology is the secret sauce. It's like having a blender with superpowers – blades that pulverize and crush through ice, fruits, and veggies in the blink of an eye. Fasten your seatbelt for flavor town!
- **ICE CRUSHING:** Say goodbye to struggling with ice cubes. This blender turns them into snow faster than you can say "refreshing." Get ready to blend your way to resort-style frozen drinks. Cheers to icy perfection!
- **RECIPE INSPIRATION:** Stuck in a blending rut? Fret not! The included recipe guide is here to rescue your taste buds. It's like having a personal mixologist in your kitchen, ready to shake things up.
- **EASY CLEANUP:** Nobody wants a complicated cleanup party. Good news – the pitcher is BPA free and dishwasher safe. It's as simple as blending, pouring, and tossing it in for an easy-peasy cleanup dance.
- **WHAT'S INCLUDED:** Unbox joy with the 1000 Watt Motor Base Professional Blender and the mighty 72 oz Total Crushing Pitcher with Lid. It's the dynamic duo ready to take your blending game to the next level.

What I loved about the blender:

1. Solid build quality.
2. Easily crush ice and frozen fruit.
3. I love the pour spout. Works so well and pours easily.
4. Loved the button blinking feature. If your pitcher is not installed properly buttons will start blinking.
5. My girlfriend loves the 72 Fluid Ounces capacity. She can blend for friends and family at one time.

What I don't like about the blender:

1. Pitcher quality was not up to the mark.
2. A heavy loud machine.
3. Some users felt difficulty while cleaning.

CUISINART CBT-600 GRY VELOCITY BLENDER

Price: \$79.95

Limited 3-year Warranty

Reason To Buy This Blender:

One of my favorite things about this blender is its simplicity. No fancy buttons or touch screens – just a good old speed control dial that's as straightforward as it gets.

Another reason why you should buy Cuisinart CBT-600 GRY Velocity Blender is it can blend everything you name it, Smoothies, shakes, daiquiris – this blender nails it. But here's the kicker – it's not just about beverages. I've whipped up some killer bakes and manicotti with this bad boy.

Cleaning is also easy. A quick rinse with soap and water, throw it on low speed, and then a swish with a paper towel – done and dusted. More time enjoying, less time cleaning.

Let's talk about lifesavers – the removable blade. If your trusty blade decides it's time for a vacation, no stress. Ordering a new one from the company website is a breeze. Hassle-free blending is the name of the game.

Features & Benefits:

- **Powerhouse Motor:** With a 600-Watt motor, this blender delivers precise results, making pureeing and liquefying a piece of cake.

- **No More Splatter Woes:** The tight-seal, splash-proof lid keeps liquids and food where they belong – in the blender!
- **Blades That Go the Extra Mile:** Removable blades not only make cleanup a breeze but also let me swap them out if they start feeling a bit dull.
- **Safe and Sound Plastic Jar:** 48 oz. Tritan plastic jar is BPA-free, ensuring my concoctions stay safe and healthy.
- **Ice-Crushing Beast:** Need crushed ice? This blender's got you covered! (need to add liquid for smooth performance.)

What I loved about the blender:

1. Three years of worry-free blending – that's what the warranty brings to the table.
2. Modern and minimal design.
3. Lightweight design makes it easy on the eyes and easy to handle.
4. Easy to take apart and clean.
5. Really good customer service.

What I don't like about the blender:

1. On the downside, I've heard a few whispers about durability concerns. It's something to keep in mind.
2. Some users reported seeing a bit of black liquid leaking during blending – not a deal-breaker, but worth noting.
3. A bit loud and noisy.
4. The plastic jar scratches up easily.

BLACK+DECKER POWERCRUSH DIGITAL BLENDER

Price: \$60

Warranty: 2 Year Limited

Reason To Buy This Blender:

The first reason to buy this blender is it's Built to Last. This blender's durability is no joke, especially considering the price. It's a bang for your buck!

The second reason is It has a Sealed control panel which means a breeze to clean. Wipe it down, and bam - your kitchen's rocking that modern vibe.

Talk about versatility! Crush pistachios, handle other nuts, and tackle ice like a champ. From smoothies to soups, this blender's got the magic touch.

Now this is a unique reason but i bet you can't find this in so many premium blenders. BLACK+DECKER PowerCrush Digital Blender got your back with overheat protection. If things get a bit toasty, it'll let you know with a friendly blink.

The final reason is that it blends with a hush. Not whisper-quiet, but definitely quieter than its buddies in the same price game.

Feature And Benefits:

- **900W Motor:** This blender isn't messing around - with a 900W motor, it crushes and blends like a boss. Say goodbye to chunky bits!
- **QuietCrush Technology:** Tired of noisy blenders interrupting your kitchen vibes? Not with this bad boy. QuietCrush Technology lets it perform without the unnecessary noise. Blend away without waking the whole house.
- **4-Tip QuadPro Blade Technology:** Let's talk blades - the 4-tip stainless steel magic-makers create a vortex that blitzes ingredients in a flash. Fast blending? Check. Constant flow? Double-check.
- **3 Speeds + Pulse:** Need smooth blends or hardcore ice crushing? This blender's got you covered with three speed functions. And that LED power indicator? It's like having a blender mood ring.

- **Easy Cleanup:** No one likes a messy cleanup, right? This blender's got your back. Toss the removable parts in the dishwasher, wipe down the sealed control panel, and you're done. Easy peasy.

What I loved about the blender:

1. It's a quiet operation. It is not quite like Vitamix The Quiet One or The Blendtec, but it is quieter than other blenders in this price range.
2. According to the company, its blade creates a vortex you can't find in many premium blenders.
3. I loved this blender's Glass jar. I saw so many premium blenders that don't come with Glass jars.
4. Another thing I love about this blender is its ice-crushing ability. Yeah, it is true that you have to add some liquid. In this price range, it is hard to find a blender with ice-crushing ability.

What I don't like about the blender:

1. You need to add liquid to blend tough ingredients like ice, frozen fruit, and veggies.
2. I love its quietness and the large glass jar, but the base is cheap plastic and not very sturdy.
3. The cable is way too short — it'd have been nice to have at least 1 more foot.
4. The rubber grip at the bottom is not durable enough.

OSTER TOUCHSCREEN BLENDER

Price: \$49

Limited 10-Year Warranty

Reason To Buy This Blender:

Are milkshakes or Smoothie lovers on a budget? Look no further – this blender does the smoothie dance for under 50 bucks. Talk about a steal!

Another reason to buy this blender is that it is known as Ice Crusher Extraordinaire. This blender has the power to crush it all.

This is not the end. It is a Dishwasher-Friendly Wonder. If you Hate doing the dishes like me, good news—toss the parts in the dishwasher. It's an easy peasy cleanup without the elbow grease.

If you are still confused, then here is another reason. Oster Touchscreen Blender is concerned about your Safety! It is Thermal shock-resistant, so there are no worries about getting a zap while blending. It's all about blending without the electric drama.

Features & Benefits:

- **Powerful Blending Magic:** Brace yourself for 800 watts of blending awesomeness! This powerhouse doesn't mess around – easily crushes and blends ice or frozen fruits like a boss.
- **Simplified Touchscreen Coolness:** Say goodbye to confusing buttons! The simplified touchscreen is not just easy to use; it's a breeze to clean. And oh, it adds that touch of modern coolness to your kitchen.
- **Dishwasher-Safe Durability:** Toss that jar in the dishwasher without a second thought. This Boroclass Glass Jar is not just durable; it's thermal shock-resistant – blending without the worries.
- **6-Speed Blending Fiesta:** Want control over your blending game? With 6-speed settings and Pulse functionality, you're the boss. From smoothies to frozen drinks and salsas, choose your texture like a pro.
- **Extra-Wide Blade Magic:** Check out those 6-point stainless steel Extra-Wide Blades – they're not messing around. Slicing, crushing, chopping, or grinding – whatever the ingredient, consider it conquered.

What I don't like about the blender:

1. Gotta be honest – the build quality doesn't hit the high notes. It's not exactly top-tier, and that can be a bit of a downer.
2. The touchscreen sometimes not work properly and very challenging to utilize
3. It's noisy.
4. The rubber ring is difficult to place in the correct position, and your fingers wind up next to sharp blades while you are doing it.

What I loved about the blender:

1. Not bulky.
2. The square metal base will give you confidence.
3. The Power: Ice cruising ability. It crushes ice for smoothies in less than 1 minute.
4. It also blends green leaves well.
5. Feels and Looks like a super high-quality blender.

HAMILTON BEACH WAVE CRUSHER

Price: \$44

1 Year Limited Warranty

Reason To Buy This Blender:

Need a smoothie, buddy? This blender's got your back. And milkshakes? Oh, it's practically a milkshake magician. Double the yum!

Another reason why this blender can be yours is it's quieter than the rest. Blend away without waking up the whole neighborhood.

Now, let's talk about the look- Imagine a blender that looks sleek and stylish and plays nice with your kitchen counter real estate. It's the James Bond of blenders - classy, compact, and ready for action without taking up too much space.

Why shouldn't you buy this blender?

If your main purpose is smoothies with lots of frozen fruits or dense vegetables, then I recommend not buying this one.

Features & Benefits:

- **Double the Blend Fun:** Get this - it blends in not one but two ways! Two jars, double the blending magic.
- **On-the-Go Bliss:** The travel jar is BPA-free and comes with a sippable lid. Perfect for those on-the-move sips - no spills, all thrills!
- **Touchpad Coolness:** Wiping down is a breeze with the touchpad screen. Easy-peasy, no fuss.
- **Blend Your Way:** Six functions plus pulse - it's like having a blending DJ. Control the power and texture, so your blend, your rules.
- **Silence, Please:** Shhh... it's not just a blender; it's a ninja in disguise. Patented design keeps the noise down - blending without waking up the whole house.
- **No-Mess Pouring:** The spout's got a hinged cap - pour without the mess. And the lid? It's like a blending pit stop, letting you toss in ingredients mid-blend. Convenience level: expert.

What I loved about the blender:

1. According to the price, it is durable enough.

2. Easy to use. Not bulky.
3. I didn't expect a glass jar, but it was there, which impressed me a little.
4. Loved the cord storage on the back.

What I don't like about the blender:

1. It will blend a smoothie, but it won't blend things smoothly and will leave bits behind.
2. It does not blend greens all the way down, and you will see some small chunks.
3. Not enough power to crush ice.

FINAL WORDS

The Ninja BL610 Professional has snagged a top spot on my list of favorite blenders under 100 bucks. It's not just about the power and features; you're also getting that sweet Ninja brand value. If you're after a blend of durability and power, this one's your go-to.

Now, if you're thinking, "Maybe a bit too much for me," no worries! The other four are hanging out, ready to be your blending sidekicks. It's all about finding the perfect match for your blending adventures.
